Cattle MAP SHOW, SALE & EXHIBITION VENUE AUDIT

'Provided by Federal Council of Agricultural Societies as part of the National JD Control Program'

Compliance Checklist

It is recommended that an inspection be undertaken 2-3 weeks before the event so that defects can be corrected, exhibitors advised and venue audited immediately before the event. Auditor and Chief Steward should be familiar with and understand the relevant rules and regulations of the Cattle MAP.

Certificate of Compliance should be displayed for exhibitors to sight on arrival before unloading.

1. Entry requirements to minimise the risk of infectious animals attending the Show. (Tick the appropriate box)

MINIMUM DECLARATION

Exhibitor's Declaration that the herd status is Non-Assessed (ie: the herd has not been assessed for Johne's Disease and Johne's Disease is not suspected in the herd).

DECLARATION & NEGATIVE TEST

Minimum as above plus testing negative of all exhibited cattle over 24 mths of age. Where the cattle are less than 2 years of age the dam will be tested.

CHECK TESTED (CT), BEEF ONLY, BEEF CATTLE TRADE ASSURANCE SCHEME (BC-TAS), DAIRY BJD SCORE 7 OR HIGHER

Only entry from these and higher status herds (including CattleMAP herds and herds from Free and Protected zones)

MN STATUS OR EQUIVALENT

Only entry of MN1 or higher status herds assessed under the CattleMAP (Note: Herds in Free and Protected Zones have a status equivalent at least to MN1).
