

Don't let an emergency or exotic animal disease get its claws into your business

If you see a suspicious disease, report it

LOOK

CHECK

ASK A VET

Call the emergency animal disease watch hotline if you suspect anything unusual in your marron or redclaw.

Whether you farm Marron or cattle, red claw or rabbit; biosecurity makes good business sense for all producers. For information about developing a biosecurity plan for your property visit farmbiosecurity.com.au/new-emerging
